Reversing Osteopenia: The Definitive Guide to Recognizing ...

From Reversing Osteopenia: Osteopenia, a stage of bone density loss that is the forerunner to osteoporosis, is a silent but deadly condition that leads to painful and deforming fractures. It begins to rob bones during the most productive time of a woman's life from the childbearing years to perimenopause. Treating osteopenia before full blown osteoporosis and fractures set in is as effective as treating blood pressure before the stroke, or high cholesterol before the heart attack.
