Soil Health and Animal Health Managing Micronutrients

In 'Soil Fertility and Animal Health', Dr. William Albrecht contends that reproductive function is often the first casualty when nutrition underpinning those biochemical mechanisms is deficient. Improved reproductive performance may represent increased calving rates for graziers or an increase in the number of laying days per

year for egg producers. In this article we will briefly touch on ...

Soil Fertility & Animal Health (The Albrecht Papers, Vol ...

Prof. Albrecht was quite ahead of his time by insisting that the soil that food plants grow on is vital to the health of not only those plants, but of the animals and humans who eat those plants and even the health of humans who eat animals who eat plants grown on that soil.
